

Attention:
Application Examiner

RE: Request for Single-Modular Transmitter Approval for FCC ID: NKRIMS2

Applicant: Wistron NeWeb Corporation.
FCC ID: **NKRIMS2**

To whom it may concern,

This letter is to declare that the module with FCC ID LHJ-CUW meets the definition of Single Modular Transmitter Subject to Section 15.212 Rules as described by the check-list derived from KDB 996369 D01 Module Equip Auth Guide v02:

Modular Approval Requirement	Yes	No
(i) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly.	X	
(ii) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal.	X	
(iii) The module must contain power supply regulation on the module.	X	
(iv) The part 15 antenna requirements need not be met by a licensed device as long as compliance is maintained with RF exposure limits..	X	
(v) The module must demonstrate compliance in a stand-alone configuration	X	
(vi) The module must be labeled with its permanently affixed FCC ID label, or use an electronic display.	X	
(vii) The module must comply with all specific rules applicable to the transmitter, including all the conditions provided in the integration instructions by the grantee.	X	
(viii) The module must comply with RF exposure requirements.	X	

Based on this information NKRIMS2 meets the criteria for single-modular transmitter. WNC would like to seek a Single-Modular Approval for the module.

Should you have any questions, please feel free to contact the undersigned.

Sincerely,

Jeremy Pickens
