Subject: Declaration Tune up Information

FCC ID: 2AKC8CTP10777001

To whom it may concern,

The provided tune-up info is a document where u-blox declares that the average conducted power is within a certain range for all the produced modules, when forced to transmit at a specific power level (as for example PCL 5 for GSM 850 / E-GSM 900 bands with GMSK modulated signal, Max power level for any UMTS FDD band, etc).

If you have any questions, please feel free to contact me.

Yours sincerely,

B. Eng. Anton STANG
