InstallShield	Cancel

Note:

Please click on "**OK**" button from the Driver Signature Notice dialog box to proceed with driver installation in Win2000 and WinXP operating system.

Driver Signature Notice	
Currently Microsoft does not have a certification program in place for Bluetooth devices. As a result, at this time it is not possible to provide certified drivers for Bluetooth devices. In the event that Microsoft implements a Windows Logo certification process for Bluetooth devices, signed drivers will be made available.	
To avoid receiving several prompts for signed drivers during the installation process, select OK to disable unsigned driver warnings, and proceed with the installation. The default warning option will be re-enabled at the completion of the installation of the Bluetooth drivers. This option is an effort to provide the best customer experience while using this product. If you select Cancel, the installation will continue without disabling the warnings and you will be required to select Continue at each prompt to proceed with the installation.	
OK Cancel	

7. After you click "**OK**" button from the Driver Signature Notice dialog box at previous step, the InstallShield Wizard will continue to install WIDCOMM Bluetooth Software.
