Re: Certification for Strattec Security Corporation OHT1130261
IC: 5461A-1130261

If necessary, we have enclosed application materials for certification of Strattec Security Corporation OHT1130261.
We tested it and found it to comply with ISED RSS-210/GENe.

Current Variants:

There are six variants of the EUT all employing the same PCB with different numbers of SMT switches populated on the PCB. For each set of button populations (zero, three, or four buttons) there are two Part Numbers associated with the product depending on their use as production or service parts.

If there are any questions regarding the application or testing performed, please contact us at the above address or call (734) 252-9785, or e-mail info@wrtest.com.

Sincerely,

Joseph D. Brunett
