

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a device, including the housing and the main board. The components are laid out on a blue surface next to a ruler for scale. The ruler has markings in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The housing is black and the board is blue. A yellow ribbon cable is visible connecting the board to the housing.
Solder Board-Component View 1	 A photograph showing a close-up view of the solder board component. The component is a blue printed circuit board (PCB) with various electronic components, including a large silver heat sink, capacitors, and integrated circuits. The component is laid out on a blue surface next to a ruler for scale. The ruler has markings in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The text "BND-MT8168-P863-H V1.0" is visible on the PCB.

Solder Board-Component View 2	 A photograph of a blue printed circuit board (PCB) component, likely a camera module, showing solder joints. The board is positioned on a blue textured surface with a black ruler for scale. The ruler has markings in millimeters (0-100 mm) and centimeters (0-10 cm). The board features several gold-colored solder pads and a small connector at the top left.
Solder Board-Component View 3	 A photograph of a blue printed circuit board (PCB) component, likely a camera module, showing solder joints. The board is positioned on a blue textured surface with a black ruler for scale. The ruler has markings in millimeters (0-100 mm) and centimeters (0-10 cm). The board features a large central chip with the text "Rykon" and "BND-MT8168-P863-H V1.0" visible. There are also various other components and connectors on the board.

Solder Board-Component View 4	 A photograph of a blue printed circuit board (PCB) with various components and solder pads. The board is placed on a blue textured surface. A black ruler with white markings is visible on the left and bottom edges, showing measurements in millimeters. The board has several gold-colored solder pads and a small component labeled 'WIFI-C'.
Antenna View	 A photograph showing the internal components of a device, including a blue PCB and a large white rectangular antenna. The components are placed on a blue textured surface. A black ruler with white markings is visible on the left and bottom edges, showing measurements in millimeters. A red box highlights a specific area on the PCB, and a red line points from a label below to this area. Wi-Fi/BT/GPS Ant⁴
