> Dear Ms. Helen Zhao

>

> I am sorry that a reply becomes so late.

> I reply to your question.

>

> Question #1: Page 47 and 48 of the test report only shows Restricted

> bandedge radiated emission from 2345MHz - 2435MHz. However the restricted

> band is 2310-2390MHz, please provide plots to show the entire restricted

> band.

>

> A#1: I revised test report that including the restricted band

2310-2390MHz.

>

> Question #2: The test report does not clearly indicate VBW setting for all

> the radiated emission measurement above 1GHz with an average detector.

Please

> update the test report to include this information.

>

> A#2: I revised test report that including the VBW 1MHz condition in above

> 1GHz emission data.

> I know that if use spectrum analyzer to the test above 1GHz,

> average value was determined RBW 1MHz and VBW 10Hz at peak value.

> Our used test receiver (Model.: ESI26) has spectrum analyzer mode and

> receiver mode.

> And ESI26 receiver mode has peak, QP and average mode function.

> I selected receiver mode (not spectrum analyzer mode) and used peak and

> average function with 1MHz RBW above 1GHz band emission test.

>

>

> Question #3: The test report indicated that 2 amplifiers were used as

> supporting equipment during the test. But the user manual does not mention

> them at all, please clarify the amplifier is an audio amplifier or a power

> amplifier. If it is a must to operate the device, please add amplifier

> information into the user manual.

>

> A#3: I submit new "User manual". please review it.

>

> Question #4: The confidentiality letter lists "Detailed technical

> specification" and "Operational Description", but there is only one

"Exhibit

> D-Technical Description" in the filing. Please either provide "Operational

> Description", or if you believe "Exhibit D-Technical Description" can be

> used as "Operational Description", please revise the Confidentiality
letter
> to remove "Detailed technical specification" from the list.
>
> A#4: We would like to "Exhibit D-Technical Description" is "Operational
> Description". And I submit new confidential request without "Detailed
> technical specification" and "Operational Description".
>
> Question #5: Please extract page 2 and 3 from Block Diagram and submit
> separately as "Antenna Specification". Please revise your confidentiality
> letter if you would like to keep antenna specification confidential.
>
> A#5: I submit the description of "Block Diagram" and "Antenna
> Specification" separately.
> And I submit new confidential request adding the "Antenna Specification".
>
