Long Term Confidentiality Request FCC ID: 2ASIM-TSU1

We are requesting Long Term Confidentiality for the TSU-1.

This request is hereby submitted by RSAE Labs, Inc. to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC ID. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- Schematics
- Detailed Block Diagrams
- Detailed Operational/Functional Description
- Internal photos

**Justification**: Non-consumer device inaccessible to general public, such as a device mounted on railcar that is only serviceable by the licensee or designated technicians. Furthermore, the device is mounted to the railcar in such a way that it cannot be opened. Additionally, as a device that is certified for hazardous locations, its label includes the warning "DO NOT OPEN".

• User Manual

**Justification**: Non-consumer device inaccessible to general public, such as a device mounted on railcar that is only serviceable by the licensee or designated technicians. Furthermore, the device is mounted to the railcar in such as way that it cannot be opened. Additionally, as a device that is certified for hazardous locations, its label includes the warning "DO NOT OPEN".

NDA Statement: All contracting parties are obliged to bind their representatives and any other receiving person to confidentiality to the same extent as themselves. In the case of tangible goods, such as provided devices, the contracting party is prohibited from taking any measures aimed at reproducing the confidential information, in particular from opening the devices. The contracting party is obliged to ensure compliance with this obligation by imposing this obligation on all recipients, i.e. third parties who acquire the equipment.

RSAE Labs, Inc. has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this

application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of proprietary, leading edge technology developed by RSAE Labs, Inc.

Institution

Ira S. Lehrman Executive Vice President, Product Management RSAE Labs, Inc.
