Subject: Request for Confidentiality

FCC ID: 2ACYESK-MH60TG-A6

To Whom It May Concern:

We Siklu communication ltd., hereby request that the Exhibits/Items listed below be withheld from public inspection in accordance with Sections 0.457 and 0.459 of the Commission's Rules for FCC.

This due to the following reasons:

The competition in this field is very intense and a less advanced solution/design could get an unfair advantage by accessing the information as listed below from common domain. As we believe that we are implementing ground-breaking solutions and designs into our products.

The listed Exhibits/Items need to be protected from disclosure to our competitors in the industry. As the FCC records have in-depth information and a very wide distribution, we believe that you can understand our concerns. We regard these Exhibits/Items to be our intellectual property and therefore as confidential information.

These solutions/products or information thereof are not accessible even for our customers or partners unless non-disclosure agreements for particular item(s) have been signed. Confidential product information can be found in, but not necessarily limited to:

- Internal photos
- Block diagrams
- Schematics diagrams

which are not released outside of Siklu since service of our products, as in open the unit and repair, is only performed at Siklu warehouse and factory.

- User's manuals
- Operational Description

which are only accessible by our trained partners under NDA.

Trained technicians under NDA can only install and configure the unit, or decide on replacement

Sincerely,

M.K
