## Using in the Vehicle

Use the device in the vehicle only in the **holder intended for this purpose**. The device may only be installed and operated in such vehicles so that the **driver cannot be distracted**.

When removing the BYOC RSE SYSTEM from the holder when traveling or when the engine is running, a warning message appears on the screen.

### ATTENTION!

Children in **the passenger compartment in reboard position**: Remove the BYOC RSE SYSTEM as well as the corresponding holder from the backrest of the front seat – Risk of injury.

## Information on troubleshooting

### The device cannot be switched on

Rechargeable battery is empty – Using the adjacent options specified, charge the rechargeable battery and switch on again.

### No volume

The volume is at 0 – Increase the volume.

Playing back has been interrupted – Continue playback or restart.

### Films / photos / music files / applications are not displayed as expected

The file format is not supported – The playback formats are specified in the online help.

The data carrier cannot be read – Check correct connection and read again.

Symbols have been deleted – Add the symbol (e.g., an App) back to the desired area.

Please note that Apps can be loaded only for landscape mode.

For questions arising, consult the online help or contact your dealer or local BYOC RSE SYSTEM Partner incase you cannot find a solution.

## Declaration

### FCC §15.105 statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### FCC § 15.19 Labelling requirements

"This device complies with part 15 of the FCC Rules and Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and  
(2) this device must accept any interference received, including interference that may cause undesired operation."

### FCC § 15.21 Information to user

"Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment."
