EUT View 3

EUT View 4

EUT View 5	 A photograph showing the front view of a white, rectangular electronic unit. The front face is covered in a dense grid of small circular perforations. A black carrying handle is visible at the top. To the left of the unit is a wooden ruler with black markings, showing the unit's height is approximately 25 cm. The unit is placed on a blue fabric surface.
EUT View 6	 A photograph showing the side profile of the same white rectangular unit. It is a slim, boxy design. A white power cord is plugged into the side and hangs down. A wooden ruler is placed vertically to the left of the unit for scale, indicating a height of about 25 cm. The background is the same blue fabric surface.

For power board model: HYS48-24ZYZZ

EUT View 2	

EUT View 3	 A photograph showing the front view of a white, rectangular electronic device (EUT) placed on a blue surface. A metal ruler is positioned horizontally below the device, indicating its width is approximately 42 cm. The device has a smooth, glossy finish and a small, dark rectangular feature near the bottom center.
EUT View 4	 A photograph showing the side view of the same white, rectangular electronic device (EUT) placed on a blue surface. A metal ruler is positioned vertically to the left of the device, indicating its height is approximately 42 cm. The device has a smooth, glossy finish and a small, dark rectangular feature near the top center.

EUT View 5	 A photograph showing the front view of a white, rectangular electronic unit. The front face is covered in a dense grid of small circular perforations. A white power cord is attached to the right side. The unit is placed on a blue surface next to a wooden ruler for scale.
EUT View 6	 A photograph showing the side view of the same white rectangular unit. It shows the smooth, unperforated side panel and the top edge. The white power cord is visible on the right. The unit is placed on a blue surface next to a wooden ruler for scale.
