

FCC LABELLING

Since the CAD device is so small, it is not practicable to place the FCC compliance statement specified under paragraph (a) of section 15.19 of the FCC Rules on it. The information required by this paragraph is placed in the second page of the User's Manual. It reads:

FCC INTERFERENCE WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTION: Changes or modifications not expressly approved by Motorola could void the user's authority to operate the equipment.

The only information displayed on the device itself (see attached picture) is the Model number and the FCC ID number.
