

Sagem Morpho Inc.
1145 Broadway Plaza, Suite 200
Tacoma, WA 98402

August 8, 2006

To whom it may concern,

We are submitting this application for certification of Sagem Morpho's MA110 Biometric Access Control terminal FCC ID: M9H-MA110. The radio is a HID iClass (OEM 50) contactless reader. We are seeking certification under FCC 15-225.

The EUT utilizes a single antenna integral to the unit.

Your efforts in meeting all of the requirements to successfully apply for FCC and Industry Canada certifications are greatly appreciated.

Sincerely,

A handwritten signature in black ink, appearing to read 'Scott De Witt', with a stylized flourish at the end.
