

## Requests dismiss application and Declaration of product status

**Product name** : Original: OpenComm2 2025 Upgrade  
: New: OpenComm2 PTT

**Model No.** : Original: SHOKZ C120, SHOKZ C121  
: New: SHOKZ C122

### To whom it may concern,

We, SHOKZ (SINGAPORE) PTE. LTD request to apply the Composite application for our product **OpenComm2 2025 Upgrade (Model: SHOKZ C120)** with **FCC ID: 2BCD6-C120** grant on **10/14/2024**, We (SHOKZ (SINGAPORE) PTE. LTD) declare this FCC ID: 2BCD6-C120 has not been used nor this product sold with this FCC ID, in the US nor anywhere in the World.

*Request to dismiss the original FCC ID: 2BCD6-C120, and we need to use this FCC ID to add additional Class:*

*Original Class: DSS*  
*New application Class: DSS+DTS*

*The new Class DTS is by enabling the BLE function by software, the original class DSS for Class BT without any change.*

Comparison of original model: SHOKZ C120 and new model SHOKZ C122

- 1. RF hardware and BT(BR/EDR) design, C122 and C120 are completely same (electrical, components, parts layout, Schematics, BOM, wiring).*
- 2. Enable the BLE function for SHOKZ C122 by software.*

**Sincerely yours,**
