

## Limited Modular Approval Request

November 19, 2014

RE : FCC ID: 2ADCB-DTL01

Dear Applications Examiner:

We are requesting Limited Modular Approval for the Acuity model with the FCC ID listed above :

	FCC Modular Approval Checklist	YES	NO
i	The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly;	X	
ii	The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal;	X	
iii	The module must contain power supply regulation on the module;		X (See Note 1 below)
iv	The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b);	X	
v	The module must demonstrate compliance in a stand-alone configuration;	X	
vi	The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements);	X	
vii	The module must comply with all specific rules applicable to the transmitter including all the conditions provided in the integration instructions by the grantee;	X	
Viii	The module must comply with RF exposure requirements (see discussions below).	X	

Note 1 : The module itself has no self-contained power regulator, thus the "Limited" scope of this request. As the owner of the radio module, Acuity will ensure that the radio receives the accurate voltage (3.3VDC) to the power input port of the module in all its applications in order to comply with the scope of this certification.

Sincerely,

Sandi McEnergy  
US Tech - Authorized Agent for Acuity
