Notice\_content

-----  
Question #1: Page 35 out of band with high channel shows a narrow band emission, please explain.

Question #2: Page 39, section 11.2, it described the antenna is permanently attached. This statement does not agree with the internal photo which shows two antenna connectors. Please make necessary changes.

Question #3: Two items ( Operational Description and Schematic Diagram )are listed as confidential documents. The portion of block diagram file contains same information as in the operational description. Please either  
a) add Block diagram as one of confidential document or b) remove operational description as confidential document. Please provide revised request for confidentiality letter.

Question #4:The user manual submitted can not be opened. It has RAR extension file . Please submit user manual with PDF format.

Best Regards

Mike Kuo

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
