Dear Sir/Madam

The Antenna Holder with FCC ID: **2ACHBGNSSPOLE** was designed to operate in the frequency bands 400-470MHz. To aid equipment authorization in other countries which accept the United States FCC Grant for Certification, **GNSS pole** is requesting that the FCC lists the frequencies 400-470MHz, under FCC Rule Part 90 on the FCC Grant.

**GNSS pole** attests that the Antenna Holder will not be marketed to USA users with the frequency band which is not allowed by the rule part 90.
