

Linkplay Technology inc. Model Confirmation Letter

We, Linkplay Technology inc. certify that the product have four models as below.

The main model for this certification is A98M.

Three series models A98M-12, A98M-22 and A98MG are derived from A98M. They are different ROM and RAM density, different brands, or different vendors. The difference does not affect BT/Wi-Fi RF performance. The detailed information of difference are listed below:

A98M: 128MB RAM,128MB FLASH

A98M-12: 128MB RAM,256MB FLASH

A98M-22: 256MB RAM,256MB FLASH

A98MG: 512MB RAM,512MB FLASH

Their circuit design, placement, components and internal routing are same.
