

## **Anelto OnTheGo +**

### Features

- Provides quick, single button access to the emergency call center utilizing the latest 4G technology
- Two-way voice communication
- Nationwide coverage on one of America's largest 4G LTE mobile networks
- Red and green LEDs to show battery and cellular status
- Built-In 3 axis accelerometer with proven fall detect algorithms when worn as a pendant
- Enhanced audio capability, crisp speaker output and adjustable microphone sensitivity
- Voice prompts to guide the user through proper use of the system
- Automatic AGPS location updates every 30 seconds upon HELP button activation to ensure help is sent to the client's most up-to-date geolocation
- Strong magnets in handset and USB cable assure secure connection for better battery charging
- Easy to use Apple/Android Care4Mom app to allow a quick look at loved ones' daily activity
- Supplied with wall plug power adapter, 1M long USB cable with magnetic interface, lanyard to create pendant, and user guide

### Notifications

- Adequate battery charge and cellular signal are required to make an emergency call
- GPS location is accurate within 30 feet or less, but can be affected by obstructions, structures, weather, etc.
- Pendant lanyards are designed to breakaway; however, any cord worn around the neck can pose a risk of strangulation
- Strong magnets in handset and USB charging cable should be kept a minimum of three inches away from health devices susceptible to magnetic fields, i.e. pacemaker, defibrillator, etc.

### Specifications

- OnTheGo LiTE Location: aGPS
- Weight: 1.8 oz.
- Cellular: LTE (Bands 2, 4 & 12) with fallback to 3G (Bands 2, 4 & 5)
- Color: white
- Shatter resistant: 6 feet
- Splash proof: can be worn in shower
- Battery life: 3-4 days standby time, may be less with fall detect enabled
- Charging temp range: 32°F to 113°F
- Operating temp range: -4°F to 140°F
