

Test Data Reuse Letter

This application is intended to reuse previous test data (from FCC ID: ZMOFM101GL, certified on 12/23/2021 of initial application), since the two models of products are hardware-wise identical and only the following changes have been made:

FM101-GL (FCC ID: ZMOFM101GL), FM101-GL (FCC ID: ZMOFM101GL12), use identical internal printed circuit board layouts, have a common design and components. The difference is only enable UL CA configurations (5B/7C/38C/41C) via software.

So, we have performed all testing items of CA configurations and reused the test data of single bands.

Also, both the referenced application and this new application are all subject to the same FCC rule and there is no new rule update for related rules. Accordingly, we believe that the reuse data from previous certified filing is justifiable. Thank you for your attention and please feel free to contact us, if you should have any questions.

Sincerely yours,

Lucy Liu
