2. Getting Started

2.1 Downloading the App

Method 1: Search for the "Print Master" app on App Store® or Google Play™ to download and install it.

Method 2: Scan the QR code to download the app.

2.2 User Guide

3. Replacing the Paper Roll

Place the paper roll in the Paper Compartment.

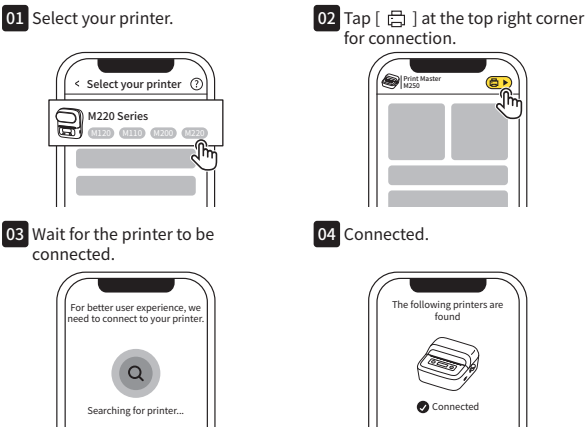

Slide the Guides inwards to the edges of the paper roll.

Extend the label paper out above the Paper Outlet and then close the Top Cover.

The Label Paper faces the Power Button and is higher than the Paper Exit.

The Paper Exit will automatically feed out a blank piece of label paper, which indicates that calibration is completed.

4. More Connection Methods

5. Charging Instructions

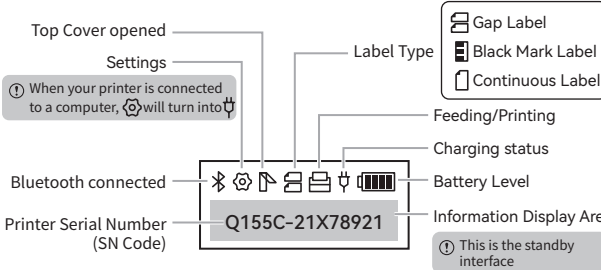

- 1. Please prepare your own power adapter (DC 5V/2A) with a Type-A port.
- 2. Insert the Type-C end (flat end) of the USB cable into M250's Type-C Charger Port and plug the Type-A end (narrow end) into the Type-A port of the power adapter.
- 3. After connecting the printer to an outlet via the power adapter, check the Display for the following indications: When the printer is off, "Charging..." will be displayed. When the printer is on, a "⚡" icon will appear in the top right corner of the Display.
- 4. To ensure quick usage, please charge the printer for at least 20 minutes. For a complete charge, wait for 2-3 hours or until the Display indicates "Charge Finished".
- 5. As the printer may heat up during charging, avoid placing it on materials such as cotton or linen while charging.
- 6. Once the battery is fully charged, please unplug it promptly.

- Using the printer while charging will slow down the charging speed.
- To preserve battery life, it is not advisable to print while charging.

7. FCC INFORMATION (U.S.A.)

FCC Compliance Statement :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC WARNING:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorienting or relocating the receiving antenna.
- Increasing the separation between the equipment and receiver.
- Connecting the equipment to an outlet that is on a different circuit than the radio or TV.
- Consulting the dealer or an experienced radio/TV technician for help.

FCC Caution :

- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
- This product satisfies FCC regulations when shielded cables and connectors are used to connect the unit to other equipment. To prevent electromagnetic interference with electric appliances, such as radios and televisions, use shielded cables and connectors for connections.

FCC Radiation Exposure Statement :

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
