Request for Class II Permissive Change

May 30, 2018

Federal Communication Commission
Equipment Authorization Division
Application Processing Branch
7435 Oakland Mills Road
Columbia, Maryland 21046

FCC ID : BBQS09W
Applicant : Casio Computer Co Ltd

To Whom It May Concern:

This is to request a Class II permissive change for FCC ID: BBQS09W, originally granted on 02/14/2018. We would like to add following models to the above mentioned FCC ID.

- MTG-B1000
- OCW-S4000

No changes have been made to the radio specification from the certified model. The only differences between the additional models and the certified model are design of watch face (display) and design of enclosure.

However, as a result of preliminary confirmation, degradation exceeding 3 dB in the spurious emissions test was observed for both MTG-B1000 and OCW-S4000 compared to the certified model. Therefore we request a Class II permissive change.

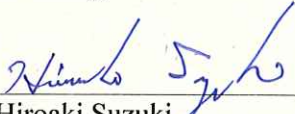

Meanwhile we submit the following documents related to this change. There is no change before and after change except for these documents.

☒	Test Report
☐	RF Exposure
☒	External Photo
☒	Internal Photo
☒	User Manual
☒	Label drawing/ location
☐	Block Diagram
☒	Specification
☐	Schematic Diagram
☐	Parts List

This time, we performed and confirmed that these products still meet the minimum requirements of the applicable rules of FCC. Please refer to the test reports submitted with this application.

Thank you for your attention to this matter.

Sincerely,

Hiroaki Suzuki
