SAFETY INSTRUCTIONS

- Keep cord out of the reach of children (more than 3ft / 0.9m away) in case of STRANGULATION.

- NEVER place the camera or cord in or near the crib or playpen.
- NEVER mount the camera directly above the crib or playpen to avoid the risk of injury.
- Only use the AC adapters provided.
- Never use the unit near water, including near a bathtub, sink, laundry machine tube, wet basement, etc.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other devices that produce heat.
- Only use attachments and accessories specified by the manufacturer.
- Unplug this device when unused for long periods of time.
- Do not insert anything into the upgrade pinholes. This operation is only intended for professionals.

CAUTION

- NOT toys. Do not allow children to play with them.
- The lens and lens hood are small parts, keep them out of your baby's reach at all times.
- This product is NOT intended to replace the proper supervision of children. You MUST check your child's activity regularly.
- This product is not intended for use as a medical camera and its use should not replace adult supervision.
- Unplug the product during lightning storms.
- Please check the operating range and condition of the camera carefully at

the initial installation, and on a regular basis after that.

- Check the reception regularly. Test the camera before use and after changing the camera's location.
- For indoor use only.
- Clean the camera with a dry cloth only.
- Do not block any ventilation openings.
- Microphone feedback might occur when the monitor is too close to the camera. Please keep them at least 1.5m / 4.9ft apart.

PACKAGE CONTENTS

- Baby Monitor & Camera [Model: VA-IH006E (for camera), VA-IH006F (for monitor)]
- Monitor Adapter with USB-C Charging Cable
- Camera Adapter
- Micro-USB Charging Cable
- Quick Start Guide
- User Guide

Baby Monitor

Camera

GETTING STARTED

1. Charging & Powering Baby Monitor

- 1) Connect the monitor adapter to the monitor and a power outlet.
- 2) Unplug the unit when its power indicator turns off, indicating a full charge.
- 3) Press the Power button on the monitor to power on with the power indicator lighting green.

2. Powering Camera

- 1) Connect the camera to power source via the Micro-USB cable and camera adapter.
- 2) Slide the Power Switch on camera to power on. Make sure the power indicator light is green.

- Only use the power adapters included in the package.
- Do not place the camera and power cord within the reach of your baby.

3. Pairing the Baby Monitor & the Camera

By default, one camera has been paired with the monitor when manufactured. When you power on the monitor and camera, the two will automatically pair. To add more cameras, press the Pair Button at the bottom of the camera, press Menu button, select through -> -> , and then the monitor will auto-pair with the camera.

- Once they're paired successfully, the camera number with icon will be shown at the top left.
- Microphone feedback might occur when the monitor is too close to the camera. Please keep them at least 1.5m / 4.9ft apart.
- It is recommended to pair in the baby's room, or wherever you intend to place the camera.

4. Placing the Camera

Place the camera 1.5-2m / 4.9-6.6ft away from your baby for safety reason and for a better view when in night vision mode.

5. Wall Mounting Camera

- 1) Select the spot to mount the camera, keeping it beyond your baby's reach.
- 2) Insert the screw (not included) pre-installed on wall into the mounting hole of the camera.

It's strongly recommended to use a screw and screw anchor. Don't release the camera until you're sure it is firmly mounted.

6. Wide-Angle Lens (Optional)

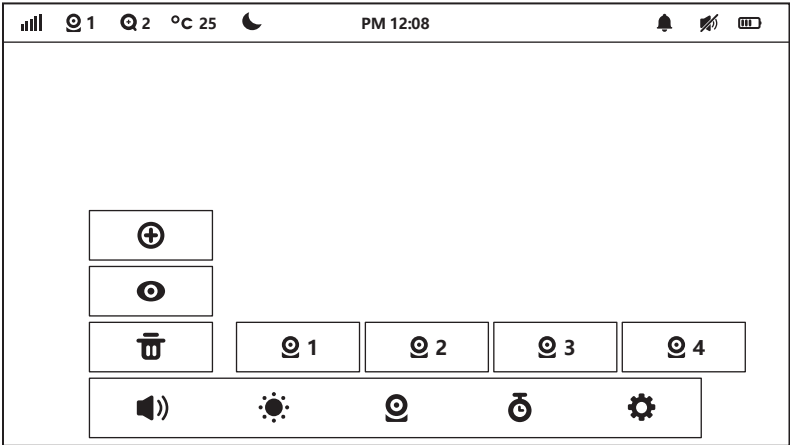

The aluminum lens hood (no special video effects) has been installed when the camera was manufactured.

To install wide-angle lens (sold separately), simply rotate the original lens hood counterclockwise to remove. Then install the new lens and rotate clockwise to fix in place.

FUNCTIONS & OPERATIONS

Monitor Interface Overview

Top Status Indications

	Signal	4 levels
	Current Camera	Camera 1 / Camera 2 / Camera 3/ Camera 4
	Zoom	2X / 4X
	Current Temperature	°C / °F
	Night Vision	Auto ON in a dim environment
	Current Time	AM / PM
	Alarm	ON / OFF
	Mute	Mute all system sounds
	Talk-back	ON / OFF
	Battery	5 levels

Bottom Menu Brief

	Add Camera	Max. 4 cameras
	View Camera	Select to view each at a time
	Delete Camera	Select to delete cameras
	Speaker Volume	0-7 levels (mute when it's 0)
	Brightness	1-8 levels
	Camera	To add / view / delete cameras
	Alarm	OFF / 2Hr / 4Hr / 6Hr / Set Time (hour / minute / AM, PM)
	Settings	<ul style="list-style-type: none">  Time  System sound volume  Temperature scale  Auto-sleep time  Restore to factory setting  Customer service contacts

1. Volume Adjustment

- 1) Use Shortcut Button: Press Talk Button -> Left / Right Button to quickly adjust the volume with  &  icons.
- 2) Or you can press Menu Button -> OK Button -> Left / Right Button to volume down / up, and OK Button to saving your settings.

For system sound adjustment, please go to Monitor Settings ->  System sound volume.

2. Display Brightness Adjustment

- 1) Use Shortcut Button: Press Talk Button -> Up / Down Button to quickly adjust the brightness with  &  icons.
- 2) Or you can press Menu Button -> OK Button -> Up / Down Button to turn up / down the brightness, and OK Button to saving your settings.

3. Talkback

- 1) Press Talk / Shortcut Button once to quickly adjust the Volume or Brightness.
- 2) Press and hold Talk Button to talk to your baby, release it to exit the talking mode.

- When you enter the talking mode, the icon  will be shown on the monitor.
- When it's mute or the speaker volume is too low, you may not be able to hear the baby.
- When you're pressing the Talk Button, the camera will not transfer the sound to the monitor. Please release the button to listen to your baby.

4. Monitor Settings

Press Menu Button, Left and Right Buttons, and then OK Button to set the monitor:

- 1)  **Time setting:** Set the current time by setting hour, minute, and AM/ PM.
- 2)  **System sound volume:** Select between Low, High, and Mute.
- 3)  **Temperature scale:** Select between °C and °F.
- 4)  **Screen auto-sleep time:** Select between 1min, 2min, 5min, and OFF.
- 5)  **Restore to factory settings:** Press OK Button to confirm resetting; "Restoring factory settings" will be shown when restoring, and you can't press any button to control the device during this period. The monitor will auto restart when it's done.
- 6)  **Customer service contacts:** Check the email, Tel. number, and address for customer service.

- To mute the sound during poor monitor-camera connection, please set the  system sound volume to mute.
- When the monitor screen is under sleep mode, the power indicator flashes green slowly while the audio is still on; press any button to awake. You can also short press the Power Button to turn the screen off.
- Press and hold the Power Button to power on / off the monitor.

5. Add / View / Delete a Camera

- 1) Press Menu button, select through -> ->  to add a camera.
- 2) Select through ->  to view a camera.
 - If there are 2 or more cameras, tap   to cycle through the added cameras every 15 seconds.
 - Select the camera number (1/2/3/4) to view the corresponding camera.
- 3) Select through ->  to delete a camera. At least one camera shall be added. Do not delete all the cameras. If necessary, please add a new camera before deletion.

You can switch viewing different cameras; the current camera number will be shown with the Camera icon  on the monitor. You can only select one camera to view at one time.

6. Digital Zoom & Circulating

Press Zoom Button to zoom in to 2X / 4X when viewing the camera. A third pressing of the button will restore to the original image. Press and hold OK Button 4 seconds to start auto circulating, press OK again to stop.

The current zoom level number will be shown with the Zoom icon  on the monitor

7. Pan-n-Tilt

When viewing the camera, press Left / Right / Up / Down Button to view at different angles, 108 degrees vertically and 270 degrees horizontally.

8. Night Vision

The night vision is automatically activated in a dim environment. The camera has 12 high-intensity infrared LEDs for picking up clear images in the dark. Black and white images can be captured within 2m distance.

9. Alarm

Press Menu Button -> Right Button to locate Alarm menu -> OK Button -> Up / Down Button to select the timer setting. You can set a 2Hr, 4Hr or 6Hr alarm, or set the hour and minute otherwise. When the alarm time is reached, a beep will be heard. Press OK Button to stop; otherwise it'll keep beeping for 30s, beeping again in 1min, stops after it's alerted 3 times.

- When the timer is set, the Alarm icon  will be shown on the monitor.
- Before setting, please check that the monitor time is your current time.

10. Wide-angle Viewing (Optional)

Install your wide-angle lens (separately sold) referring to the previous mounting wide-angle lens section. Now you can view the camera in a wider angle of about 170 degrees.

11. Temperature Alert

The monitor will prompt too high (>35°C / 95°F) and too low (<0°C / 32°F) temperatures with the “HH” and “LL” icon, accompanied with a  &  icon and a beep alert.

When the monitor is mute, you may not be able to hear the baby.

SPECIFICATIONS

Monitor

Resolution	IPS (720 x 1280), PPI=296
Connectivity	2.4GHz
Image Aspect	16:9 (HD720)
Image Compression	h.264 (frame rate = 18fs)
Operating Range	280 - 300m (antenna vertically positioned at 90°)
Temperature Alert	Yes
Volume Control	8 levels
Brightness	8 levels
Antenna	Rotatable (max. 90 degree)
Power Input	5V / 2A (1.5m long USB C cable)
Zoom	Zoom In (2X) Zoom In (4X) Auto-Pilot (2 Cycle)

FCC STATEMENT

FCC RF Exposure Warning Statements for Camera:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with minimum distance 20cm between the radiator & body.

ISED Radio Frequency Exposure Statement for Camera:

This equipment complies with IC exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with minimum distance 20cm between the radiator & body.

Cet équipement est conforme aux limites d'exposition IC définies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et la carrosserie.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information:

FCC RF Exposure requirements: The highest SAR value reported under this standard during product certification for use next to the head with the minimum separation distance of 0mm. This transmitter must not be collocated or operating in conjunction with any other antenna or transmitter.

This product is compliance to FCC RF Exposure requirements and refers to FCC website <https://apps.fcc.gov/oetcf/eas/reports/GenericSearch.cfm> search for FCC ID: 2AVUHVA-IH006A and FCC ID: 2AVUHVA-IH006B

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

(1) L' appareil ne doit pas produire de brouillage;

(2) L' appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d' en compromettre le fonctionnement.

for monitor:

This EUT is compliance with SAR for general population/uncontrolled exposure limits in IC RSS-102 and had been tested in accordance with the measurement methods and procedures specified in IEEE 1528 and IEC 62209. This equipment should be installed and operated with minimum distance 0 mm between the radiator and your body. This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

Cet appareil est conforme aux limites d'exposition DAS incontrôlée pour la population générale de la norme CNR-102 d'Industrie Canada et a été testé en conformité avec les méthodes de mesure et procédures spécifiées dans IEEE 1528 et IEC 62209. Cet appareil doit être installé et utilisé avec une distance minimale de 0 mm entre l'émetteur et votre corps. Cet appareil et sa ou ses antennes ne doivent pas être co-localisés ou fonctionner en conjonction avec tout autre antenne ou transmetteur.
