

LoRaWAN Temperature & Humidity Sensor

LHT52

OVERVIEW:

The Drogino SHISZ Temperature & Humidity sensor is a long Range LoRoWAN Sensor. A includes a builtie-Temperature & Humbility sensor and has a USB Type-C sensor connector to connect to external sensors such as external furgrenature Sensor.

DFTE2 senses entrument temperature and funcility and sand fluxe voluments incorrange workers interWAM protocol. It to perspectational wireless among actions applications such as food service, smart metering, among cities, hardling materials, and so so.

19752 supports Z x AAA burtones and works for a long time up to several years. Use can replace the harbeins easily after they are harded.

19762 is fully compatible with InflaWAN v1.0.2 protected, it can work with associated InflaWAN

UHT32 supports Datalog Feature to night some users word retail sensor data. It records sensor rakes for every uplink. These values can be retrieved by LoRsWAM server via downlock commond.

19782 regions temperature alarm feature. It can apliek alarm as a short interest while temperature wannests are not been

Festivers:

- Wolf Attacholise
- LofeWAN Class A protect.
- AT Commands to thange parameters.
- * Senate configure via LaBaWAN Drewnlink
- * Tireware upgradable via program part
- · 2 x AAA (EGS 1 Sy Setteries
- · Eurhin Temperature & Hamility sensor
- * Quitoral External Service
- . Transfer IED to indicate status
- Detailing and service by Lotts WAN
- · Temperature aliano feature

Environment

- . Working Temperature: 20 20°C
- · If Keting: IF57

Package

- . Diseason 5.8 x 5.8 x 2.0 cm
- Pickage beheistNT32
- Purkage that Include: Enteries, External Temperature Sensor

Sensor Speci

Built in Temperature Sensor

- Rouge: 30 + +50 °C

Built in Humidity Sensor:

- Ramps 0 97 7% 8H (so dee)
 Assumery = 358H (20 8058H)
- Resolution: O 1% 804
- · Response Free Re

- Brushiton (LORD) T
 MAX 40.19°C minimay from 10 to 85°C
 Mark 42°C minimay from 55 to +125°C
 Critis Leigh 2 maters

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The users manual or instruction manual for an intentional or unintentional radiator shall caution the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. In cases where the manual is provided only in a form other than paper, such as on a computer disk or over the Internet, the information required by this section may be included in the manual in that alternative form, provided the user can reasonably be expected to have the capability to access information in that form.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -- Reorient or relocate the receiving antenna.
- -- Increase the separation between the equipment and receiver.
- -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - -- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
