

APPENDIX G – FCC RE-SUBMISSION COVER LETTER

November 27, 2000

Federal Communications Commission
Equipment Approval Services
7435 Oakland Mills Road
Columbia, MD 21046

**SUBJECT: SYMBOL TECHNOLOGIES, INC.
 CLASS II PERMISSIVE CHANGE
 FCC ID: H9PCST3040K088R1
 Original Grant Date: June 27, 2000**

To Whom It May Concern:

Submitted herewith, on behalf of SYMBOL TECHNOLOGIES, INC., is SAR test data provided in response to the hands only RF Exposure warning label condition stipulated on the grant received. Please find attached the SAR evaluation report, for both Body and Hand, demonstrating the unit's SAR compliance. Worse case data indicates the Max. Body SAR data measurement to be 0.315 mW/g (1g. avg.); and worse case data indicates the Max. Hand SAR data measurement to be 0.575 mW/g (10 g. avg.).

Also, please find attached the photos demonstrating the worst-case placement configuration of the unit to the flat phantom. You will see the unit's outer shell is in contact (touching) the outer shell of the flat phantom allowing for "worst-case" evaluation testing.

We trust this information is sufficient for the re-issuing of a new grant without the hands only RF warning statement.
