

MEMORANDUM

TO: REVIEWING ENGINEER

FROM: UNIDEN ENGINEERING SERVICES

DATE: OCTOBER 26, 1999

SUBJECT: CORRECTION TO FILE DESCRIPTION ON TEST REPORT

=====

RE: PREVIOUSLY FILED APPLICATION - CONFIRMATION #: EA95675

FCC ID: AAO4301124

During the uploading of the "Test Report and Procedures", we had initially tried to submit the entire report in a single upload. Evidently, the file was too large, so we divided the Test Report into seven parts and resubmitted successfully on 10/22/99.

Subsequent to our filing the above referenced Test Report, we noticed that one of the parts was not completely identified. If you will notice, we named and numbered each part, for example as "Test Report and Procedures Part 1". However, on Part 6, we noticed that we omitted the reference to "Part 6" in the File Description.

Therefore, please note this error when reviewing the above referenced application. The exhibit named "Test Report and Procedures" should actually be the "**Test Report and Procedures Part 6**".

I sincerely apologize for this mistake and would very much appreciate it if this could be corrected. Thank you in advance for your consideration in this matter. Please contact me if you have any questions or require any additional information.

Sincere regards,

A handwritten signature in black ink that reads "James R. Haynes".

James R. Haynes
Vice President, Engineering and Regulatory Affairs
