## Request for Confidentiality

Date: May 30, 2016	
Subject: Confidentiality Request for FCC ID: QIPELS61-AUS	
Pursuant to FCC 47 CRF 0.457(d) and 0.459 and IC RSP-100, Section 10, the applicant requests that a part of the subject FCC application be held confidential.	;
Type of Confidentiality Requested	
have achieved by developing this product. Not protecting the details of the design will result in financial hardship.  Permanent Confidentiality:  The applicant requests the exhibits listed above as permanently confidential be permanently withheld from public.	
review due to materials that contain trade secrets and proprietary information not customarily released to the publication and the publication of	lic.
Short-Term Confidentiality:  The applicant requests the exhibits selected above as short term confidential be withheld from public view for a portion of180 days from the date of the Grant of Equipment Authorization and prior to marketing. This is to avoid premature release of sensitive information prior to marketing or release of the product to the public. Applicant is aware that they are responsible to notify ACB in the event information regarding the product or the product is materially available to the public. ACB will then release the documents listed above for public disclosure pursuant to FCC Notice DA 04-1705.	d also de
Sincerely,  By:  Thorsten Liebig  (Signature/Title²)  Thorsten Liebig  (Print name)	

<sup>2</sup> - Must be signed by applicant contact given for applicant on the FCC site, or by the authorized agent if an appropriate authorized agent letter has been provided. Letters should be placed on appropriate letterhead.

<sup>&</sup>lt;sup>1</sup> - The asterisked items (\*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."
