

## Appendix F: Test Photographs

**Photograph 1: Radiated Emissions - Front View of CQ17718-G1 Antenna Testing**

Please note that a QL420 is used to control and exercise the module under test. A riser cable is used to separate the module under test from the QL420 to meet the requirements of DA 00-1407.

**Photograph 2: Radiated Emissions - Rear View of CQ17718-G1 Antenna Testing**

**Photograph 3: Radiated Emissions - Front View of CQ17718-G2 Antenna Testing**

**Photograph 4: Radiated Emissions - Rear View of CQ17718-G2 Antenna Testing**
