USER MANUAL

Thank you very much for buying this product! You are advised to read this user manual carefully before using this product. We sincerely hope this product will bring you a lot of convenience and fun while you are driving.

This product is car FM player. It uses a dedicated 5.0 high performance Bluetooth module and a built-in high-quality MP3 decoder chip. It can wirelessly transmit the music in the U disk and TF card to the car stereo, as long as your mobile phone supports Bluetooth function. After the connection is successful, you can send music to your car stereo through car FM. You can enjoy beautiful music without modifying your car if there is an incoming call, it will automatically broadcast the caller number and answer it. Then you can switch your incoming call to hands-free status, and continue to play music after the call, make your driving safer, and enjoy music at the same time.

1. Bluetooth mode:

- (1) Insert the product into the car cigarette lighter, match the FM frequency, turn on the Bluetooth of the mobile phone, search for the Bluetooth name BT CAR-B, click on the connection and pairing is successful, you can listen to music or make calls.
- (2) When there is an incoming call, there is a voice prompt, marking the called's telephone number.
- (3) When call is coming, press the phone button to answer the call automatically.
- (4) If you want to reject the call, press and hold the phone button.
- (5) When you turn on the mobile phone GPS-navigation, you can use the car's built-in function of GPS navigation to make your driving more secure.

2. U Disk/TF/Bluetooth Mode:

- (1) Insert the TF disk, the car audio will automatically play the music in the U disk.
- (2) Insert the TF card, the car audio will automatically play the music in the TF card.
- (3) Long press the phone button to switch mode (U disk/TF/Bluetooth).
- (4) You can control the volume of the music sound through the rotary encoder, the deaf volume is 34, or press car control the volume through the car volume button.

3.FM function:

- (1) If you want to change the FM frequency, short press the CH button to activate the frequency, when the display is shaking, you can quickly select the frequency through the encoder.
- (2) Double long press, you can start/stop the radio.
- (3) The Frequency range of car MP3: When the product is on, a frequency will appear on the display, in order to achieve the best sound quality, adjust the frequency of the car to an empty frequency and restart the product frequency.

4. Lighting function:

- (1) The light of various colors will automatically turn off when the product is turned on.
- (2) If you need a single color, you can switch the color of the light by pressing a short button.
- (3) The colors are red, green, blue, red, light blue, light green, purple, blue and white.
- (4) If you want to turn off the colored lights, press the button 6 times to turn off the colorful lights.

5.Charging function:

- (1) This product supports QC3.0 fast charge, is compatible with QC3.0 fast charge function, supports fast plug function, fast plug will not turn off the phone.
- (2) Maximum output 20W PD fast charge, (TF08, 3022.2A, 3321.7W)
- (3) The charging current is 100mA to 500mA, output port is QC3.0. Max output current is 4A.

6. Power-off memory:

When this product is powered off, it remembers the frequency that it used and the music in U disk or U disk that is played before the it is turned back. When the product is restarted again, it will continue play those that you listen to last time.

Technical Parameters:

Working voltage: 12-48V
 U Disk output: QC3.0/PD 3.0A
 Play format: MP3/WMA
 MP3: 14000B
 Distortion: <0.5%
 Bluetooth version: 5.0
 Bluetooth paired processing: A2DP (Advanced Audio Distribution Profile) function support
 Bluetooth transmission distance: 10 meters
 Bluetooth transmission effective distance: 0.5-2 meters
 FM frequency: 100MHz-107MHz
 FM modulator: stereo digital PLL Frequency lock

Attention:

1. When the U disk is inserted, this product will connect with mobile phone through Bluetooth automatically, unless you turn off Bluetooth on mobile phone.
2. This product connects itself to antenna, so please avoid switching to a flat frequency with very strong signal or an unconnected FM frequency in order to get a better sound quality.
3. To adjust the volume of car audio by using the button on it instead of adjusting the volume through this unit. If you use this product to increase the volume of car audio, do not increase the volume to the highest volume because that can cause damage.
4. Some mobile phone may not be automatically connected with this product through Bluetooth. If the happened, please manually connect mobile phone with this product through Bluetooth.
5. If the voice is not loud enough during the call, please manually adjust the volume of the product.
6. Do not use this product in high temperature state of found environment.
7. Pull out this product from the cigarette lighter if it is not in use for a long time. This product is not a cigarette light after the car engine is started to avoid the possible damage of high voltage on this product.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
