EUT View 4	

EUT View 5

EUT View 6

EUT View 1	 A black handheld electronic device is shown from the front. It features a rectangular screen on the left side. To the right of the screen are three capacitive touch buttons: a left arrow, a central vertical bar, and a right arrow, arranged horizontally. Below these are two more buttons, one above the other, each with a downward-pointing arrow. The device is placed on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters.
EUT View 2	 The back of the black handheld device is shown. It has a small, square-shaped fingerprint sensor in the center. A white rectangular label is affixed to the right side of the back cover. The label contains the text 'Model: D07502H', '15-07-2018', and a CE mark. The device is placed on a blue textured surface next to a black L-shaped ruler, similar to the one in the first view.

EUT View 3	 A black rectangular device, likely a mobile phone or tablet, is shown from a top-down perspective. It features a screen on the left side and a series of buttons on the right. The device is placed on a blue surface next to a ruler for scale. The ruler shows measurements in centimeters, with markings from 0 to 100 visible.
EUT View 4	 A black rectangular device, likely a mobile phone or tablet, is shown from a side-on perspective. It features a screen on the top side and a series of buttons on the bottom. The device is placed on a blue surface next to a ruler for scale. The ruler shows measurements in centimeters, with markings from 0 to 100 visible.

EUT View 5	 A black, rectangular electronic device is shown from a top-down perspective. It features a central display area with navigation buttons (left, right, and a central button) and two smaller buttons on the left side. A ruler is placed below the device for scale, showing measurements in centimeters and millimeters. The device is resting on a blue textured surface.
EUT View 6	 A black, rectangular electronic device is shown from a top-down perspective, oriented vertically. It features a central display area with navigation buttons (left, right, and a central button) and two smaller buttons on the left side. A ruler is placed below the device for scale, showing measurements in centimeters and millimeters. The device is resting on a blue textured surface.

Model: DD7662AH

EUT View 1	 A photograph showing the front of a white, rectangular electronic device. The device features a small black rectangular display on the left and a cluster of seven buttons on the right. The buttons are arranged in two rows: the top row has four buttons (left arrow, center, right arrow, and a square button), and the bottom row has three buttons (left arrow, center, and right arrow). The device is placed on a blue textured surface next to a black ruler with white markings. The ruler is oriented vertically, with the 0 mark at the top and the 100 mm mark at the bottom. The device is positioned between the 100 mm and 120 mm marks.
EUT View 2	 A photograph showing the back of the same white, rectangular electronic device. The back is mostly plain white with a small, square, light-colored button in the center. A small white label is affixed to the bottom right corner of the device. The label contains the following text: "Model: DD7662AH", "15-channel Encoder", "AAA 1.5V", and "433 MHz 799MHz". There is also a CE mark and a recycling symbol on the label. The device is placed on a blue textured surface next to a black ruler with white markings. The ruler is oriented vertically, with the 0 mark at the top and the 100 mm mark at the bottom. The device is positioned between the 100 mm and 120 mm marks.

EUT View 3	
EUT View 4	

EUT View 5	 A photograph of a white, rectangular electronic device (EUT) lying horizontally on a blue textured surface. The device has a small black screen on the right side and several buttons on the left. A black ruler with white markings is placed below the device, showing measurements in centimeters. The ruler is oriented vertically in the image, with the 0 cm mark at the top and the 10 cm mark at the bottom.
EUT View 6	 A photograph of the same white electronic device (EUT) lying vertically on the same blue textured surface. The device's screen and buttons are visible. A black ruler with white markings is placed below the device, showing measurements in centimeters. The ruler is oriented horizontally in the image, with the 0 cm mark on the left and the 10 cm mark on the right.

EUT View 1	
EUT View 2	

EUT View 3	 A black rectangular device, likely a remote control or a small electronic unit, is shown from a top-down perspective. It features a large rectangular touchpad on the left side and a row of five buttons on the right. The buttons include a left arrow, a central button with a vertical line, a right arrow, and two curved arrow buttons. The device is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in centimeters and millimeters.
EUT View 4	 The same black rectangular device is shown from a different angle, possibly a side or bottom view. It is still placed on the blue textured surface next to the black ruler. The device's shape and the ruler's markings are clearly visible.

EUT View 5	 A black, rectangular electronic device is shown from a top-down perspective. It features a small screen on the right side and several buttons on the left. A ruler is placed below the device for scale, showing measurements in centimeters. The device is resting on a blue surface.
EUT View 6	 A black, rectangular electronic device is shown from a side-on perspective. It features a small screen on the right side and several buttons on the left. A ruler is placed below the device for scale, showing measurements in centimeters. The device is resting on a blue surface.

Model: DD7662H

EUT View 1	 A photograph of a white, rectangular electronic device (EUT) with a small black screen at the top and four buttons below it. The device is placed vertically next to a black ruler with white markings. The ruler shows measurements in centimeters and millimeters. The device is positioned between the 10 cm and 20 cm marks on the ruler.
EUT View 2	 A photograph of the same white electronic device (EUT) from a different angle, showing its side profile. It is placed next to a black ruler with white markings. The ruler shows measurements in centimeters and millimeters. The device is positioned between the 10 cm and 20 cm marks on the ruler.

EUT View 3	 A photograph showing a white, rectangular handheld electronic device (EUT) lying horizontally on a blue textured surface. To the left of the device is a black L-shaped ruler with white markings in centimeters and millimeters. The device has a small black screen on its right side and several white buttons with black symbols (arrows and a central square) on its top surface. The ruler indicates the device is approximately 10 cm long.
EUT View 4	 A photograph showing the same white handheld electronic device from a different angle, oriented vertically. It is placed next to the same black L-shaped ruler on the blue textured surface. The device's screen is now at the bottom, and the buttons are at the top. The ruler indicates the device is approximately 10 cm high.

EUT View 5	
EUT View 6	

EUT View 1	 A black handheld device is shown from the front. It features a small rectangular screen on the left and a control panel on the right with four buttons: two directional arrows (left and right) and two function buttons (top and bottom). The device is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in centimeters and millimeters.
EUT View 2	 A black handheld device is shown from the back. It has a small square feature on the left and a label on the right. The label contains the following text: "Model: CDD7862H", "1000mAh Dual Camera Battery", "CE", "FCC", "RoHS", "REACH", "AAMA 110002", and "© 2015 Waltek (Shenzhen) Co., Ltd.". The device is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in centimeters and millimeters.

EUT View 3	 A black rectangular device, likely a remote control or a small electronic unit, is shown from a top-down perspective. It features a small, dark rectangular screen on the left side and four buttons arranged in a 2x2 grid on the right. The buttons have white symbols: left arrow, right arrow, up arrow, and down arrow. The device is placed on a light blue textured surface. A black ruler with white markings is positioned horizontally below the device, showing measurements in centimeters and millimeters. Another ruler is partially visible in the top left corner.
EUT View 4	 A black rectangular device, similar to the one in View 3, is shown from a top-down perspective. It features a small, dark rectangular screen on the left side and four buttons arranged in a 2x2 grid on the right. The buttons have white symbols: left arrow, right arrow, up arrow, and down arrow. The device is placed on a light blue textured surface. A black ruler with white markings is positioned horizontally below the device, showing measurements in centimeters and millimeters. Another ruler is partially visible in the top left corner.

EUT View 5	 A black rectangular device, likely a mobile phone or PDA, is shown from a top-down perspective. It features a small screen on the right side and several buttons on the left. The device is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in centimeters and millimeters.
EUT View 6	 A black rectangular device, similar to the one in View 5, is shown from a different angle, possibly a side or bottom view. It is placed on the same blue textured surface next to a black ruler with white markings. The ruler shows measurements in centimeters and millimeters.
