

Declaration of Identity 自己申請

To whom it may concern,

RTX A/S declare that the RF part of the product RM-WCH-8 is in all relevant Radio protocol (software) approval parameters (according to the Japanese Radio law (電波法)) identical to the products RM-WOM, RM-WOM, RM-WDR, RM-WGS.

The modifications / differences apply to following features:

The products RM-WOM, RM-WOM, RM-WDR, RM-WGS are microphone devices whereas the RM-WCH-8 is a charging device used to the charge the before said microphones.

All products are DECT Portable Parts devices, using same DECT radio module containing the same radio transmitter control firmware and same antenna type, but the RM-WCH-8 application PCB and product mechanics are different.
