2.

Firmware updates contains improved performance or add new functionality updates to your Nuroum AW10.

3.)

Device name modification.

Notes & Warnings

1、

Please carefully read and follow all the safety instructions.

2、

Use the provided cable to charge the device.

3、

Unauthorized dismantlement and strong impact may damage the device.

4、

Keep the device away from high-temperature environment or heat source.

5、

Keep the device away from strong magnetic field or electric field.

6、 Store this device in dry and cool places. Do not immerse the device in water or any other liquid. 7、

Constant high volume sound may cause negative impact on human's hearing.

8、

Classify and dispose the packing materials, battery and electric devices properly.

9、

Do not dismantle or crush the battery, or pitch the battery into fire.

10、

The device will automatically shut down when the power is exhausted. If the device is not used for a long period, charge the battery every other month.

11、

The packing contains small components that may cause dangers to children. Please keep the device out of children's reach. The packing material and small components may cause suffocation.

12、 The device can be an interference source for other electric devices and medical equipment.

13、

Turn down the device where it is prohibited.

Product information

Dimensions	135*122*36mm	Weight	
USB cable	Micro-USB	Battery specification	3.7V/3600mAh
Charge specification	5V/1A	Talk time	Up to 30 hours
Microphones	MEMS	Speaker	4 Ω 3W
Connection modes	Micro-USB/Bluetooth	Bluetooth version	BT5.0
Supported Bluetooth profiles	HFP、A2DP、BLE	Bluetooth distance	~ 10m (depends on your RF environment)

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
