Change mode:

Press the right button 3 times:

Noise Cancelling On > Ambient Mode On > Sound Modes Off > Noise Cancelling On ...

Press the left button 3 times:

Low Latency On > Low Latency Off > Low Latency On ...

ANC (Active Noise Cancelling) actively cancels noise around you so that you can hear your music/movies or calls more clearly with less distraction.

Ambient Mode turns off ANC and instead actively amplifies sound around you to counter-act the passive noise reduction of the earphones for situations where you want to hear speech or traffic noise or other ambient sounds.

Clear Calling uses the two microphones to cancel noise pickup in your microphone channel on calls. Clear calling is always enabled when a call is made (and can be used with ANC if desired).

Low Latency mode:

Reduces the latency (time delay) inherent in Bluetooth connections to less than 60mS in the earphones which is imperceptible for most people. Improves lip-sync and provides fastest sound feedback for mobile gaming.

Pairing the Earphones with your phone/tablet/Bluetooth device

- Go to " Bluetooth " Settings on your Bluetooth device .
- Turn the Bluetooth ON, on your device.

• Open the charging case, the LED on the case will light up, The earbuds will automatically turn on and pair to each other. Now they can be paired to your device.

- On your Bluetooth Device, select **AIWA Prodigy Clear Plus**

Charging the Case:

- The case can be charged by USB (wired) or Qi (wireless).

• The case LED flashes when charging. Flashing amber when case charge is <20% and flashing green when >20%. The LED goes solid green when the case is fully charged.

• For USB charging use the supplied USB A to USB C cable and a standard USB adaptor or socket (5V 1A).

• For Qi charging place the case on a Qi pad so that the back of the case lies flat on the pad and the case in the middle of the charging area.

• Unplug the cable or remove the case from the Qi pad when the case is fully charged.

Charging the Earphones:

- Place the earphones into the case. Make sure they make good contact with the charging pins.
- Before first use of the earphones please charge them to 100%.

Warning: Only use the provided case never try to charge from another case or device.

Restore factory settings Open the cover of the charging case, press and hold the button on the rear of the case for around 8 seconds to clear the pairing history and restore the factory settings.

Specifications:

Model No:
A11202-BLK-STK

Playing time (ANC OFF):
up to 7 hours

ANC depth:
25+/-2dB

Charging case battery capacity:
350mAh

Bluetooth version:
5.0v

Earbud charging time:
around 30 mins

Driver size:
Φ10mm

Fast charging:
5 minutes = 1 hour playtime

Effective range:
up to 15 meters

Case charging:
USB: Around 2 hours
Qi: Around 2.5 hours

Earbud battery capacity:
40mAh

Charges in case:
3

Playing time (ANC ON):
up to 4.5 hours

Charging port:
Type-C USB

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.
