Request for Class 2 Permissive Change (C2PC)

Equipment: **A700 Series Terminal** Model No.: **TAP910-01, TAP920-01, TAP930-01**

FCC ID: **MQO-TAP900-01**, initially granted: **08/28/2013**

Grantee:

Vocollect Inc
703 Rodi Road
Pittsburgh, PA 15235

To Whom It May Concern:

Pursuant to CFR47 §2.1043, Vocollect Inc. applies for a permissive change class II for the given equipment.

The reason for this C2PC application is to have the equipment certified under the changed U-NII rules published in the Report and Order ET Docket No. 13-49 and which became effective on June 2, 2014.

All above listed equipment uses the identical relevant HW/SW portion.
No actual changes to the HW/SW were required to comply with the changed U-NII rules.

The recognized lab of CETECOM Inc., Milpitas, California has verified through appropriate evaluation of the equipment and related documentation that the requirements of the new U-NII rules are fulfilled.

This C2PC application is further supported by updated exhibits where relevant.

Sincerely,

A handwritten signature in blue ink, appearing to read "Gretchen Bullen". The signature is stylized and fluid, with a long horizontal line extending to the right.
