Dear Sir or Madam,

Intermec Technologies Corporation hereby declares that our 700-GPRS product (FCC ID: HN2MG18) uses the same transceiver as Motorola's GSM radio module (FCC ID: IHDT6AC1). No hardware or software modifications have been made to the module for its integration into our Pen Tablet Computer. Therefore all test data and technical exhibits in Motorola's original FCC grant application are applicable to our product as well. Please feel free to contact me, if you have any questions.
Sincerely,

Carl K. Turk, MSEE
Sr. EMC Engineer
Intermec Technologies Corp.
