Question #1: The 15B test report section 1.6.2 does not indicate clearly about ferrite core information. Please update the test report.

Question #2: The 15B test report section 3.2.2 Please clarify the data is last calibration or next calibration. If it is the former, please update the test report, if it is the latter, then you used past due equipment for testing, the test results are invalid.

Best Regards,
Helen Zhao
