

Appendix - Internal Photographs of EUT Constructional Details

Model: BKW-12

Photo 1

Photo 2

A photograph of a green printed circuit board (PCB) with various electronic components. The board is rectangular with a wider section on the right and a narrower section on the left. It features several surface-mount components, including a large black integrated circuit (IC) on the right, a smaller IC in the center, and several resistors. There are also several circular vias and through-hole components. A ruler is placed horizontally below the board, showing measurements in millimeters (0 to 100 mm) and inches (0 to 4 inches). Another ruler is placed vertically to the left of the board, showing measurements in millimeters (0 to 100 mm) and inches (0 to 4 inches). The background is a solid blue surface.
