

## **Correspondence Summary Q & A**

October 17, 2005

SUBJECT: QUANTA COMPUTER INC. - FCC ID: HFS-ATOM

- 
1. Question: Test setup photos: The photos show an external antenna connected to the phone. It appears to be a magnetic mount vehicular antenna. Please explain and provide a description for this antenna. Is it used for PCS, WLAN (Wi-Fi), BT, or other operations?

Answer:

The external antenna is not connected to EUT. It is the antenna connected to base station simulator.
