Contents

- Bluetooth Aux Receiver
- USB-C Charging Cable
- 3.5MM MALE-TO-MALE Connector
- User Manual

A Quick Look

Charging

Use the included USB-C charging cable to charge your receiver.

Setup

1. Connect one end of the included 3.5MM MALE-TO-MALE Connector into the Aux Port on your receiver.
2. Connect the other end of the 3.5MM MALE-TO-MALE Connector to the auxilliary Out port or headphone jack of your speaker or audio device.

NOTE: If your speaker/audio device has an attached 3.5MM audio cable, insert it directly into the receiver's Aux port. The 3.5mm male to male connector is universal . Please adjust the insertion depth of the connector into the aux port to achieve the best sound quality.

3. Press and hold the receiver's Power button to power it on.

Bluetooth Pairing

Once your receiver is powered on, it will go into Bluetooth pairing mode.

Make sure that your phone's Bluetooth is turned on and connect with the device labeled "Bluetooth Aux Receiver".

Once paired the LED Indicator Light will very slowly flash blue.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
- FCC Radiation Exposure Statement:
 The device has been evaluated to meet general RF exposure requirement.
 The device can be used in the portable exposure condition without restriction.
