

Wireless Charging Mouse Pad

Model: MASBW001

INSTRUCTIONS/INSTRUCCIONES/DIRECTIVES

Use the included Micro USB cable to connect the wireless charger to a USB power source.

Place your phone on the designated charging area.

Your phone will indicate when charging begins.

NOTE: Wireless Chargers may become warm when charging devices.

NOTE: This charger is designed for Qi-compatible devices. If your phone does not have built-in Qi wireless charging capabilities, please use a certified Qi wireless charging case or receiver. Refer to your phone's user manual for detailed features and functions.

Phone cases that contain metal, magnets, or are thicker than 3mm will interfere with wireless charging.

IMPORTANT/IMPORTANTE/IMPORTANTE

Read all safety instructions and warnings prior to using this product. Improper use and failure to follow safety guidelines could result in hazards, injury and/or property damage that is not the manufacturer's responsibility. The user is responsible for maintaining this product with care for maximum use.

Do not place metal objects, magnets, magnetic stripe cards, and hard drive based devices near the wireless charger. It may cause data corruption.

Do not attempt to modify, disassemble, or repair this product.

Do not expose to water, moisture, or extreme temperatures (below 40F or above 90F)

Under any circumstances, if you find this product rapidly increasing in temperature, emitting odor, or demonstrating an abnormal phenomenon, discontinue use immediately.

Si encuentra este producto aumentando rápidamente de temperatura, emitiendo olor, deformado, erosionado

WARNING: This product may contain a chemical known to the state of California to cause cancer.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the

Instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
