RE: Request for Class II Permissive Change on FCC ID: K44431501

To Whom It May Concern:

JVC KENWOOD Corporation is submitting an application for FCC Class II Permissive Change to the NX-5300-K5, NX-5300-K6, NX-5300-F5 and NX-5300-F6 UHF Digital TRANSCEIVER (FCC ID: K44431501).

The changes filed under this application are:

- Add the Emission designator of 7K60FXE / 7K60FXD (Digital (DMR)) by Software change to the existing Grant of Authorization. (Grant Date : 10/12/2015)
- There are no changes to the Hardware and the circuits.
- SAR/RF Exposure is not required because 7K60FXE / 7K60FXD (Digital (DMR)) just added by Software change. This change does not effect SAR result.

Please contact me if you require any additional information.

Sincerely,

Tamaki Shimamura
Communications Systems Business Unit
JVC KENWOOD Corporation
