

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View	 A photograph showing the internal components of an Electronic Under Test (EUT) housing. The black plastic housing is open, revealing a green printed circuit board (PCB) with various electronic components, including a large integrated circuit and several capacitors. A white ribbon cable is connected to the board. The assembly is placed on a blue textured surface next to a black ruler with white markings in centimeters and millimeters.
Solder Board-Component View 1	 A close-up photograph of a solder board component. The component is a small, rectangular green PCB with various electronic components, including a large integrated circuit and several capacitors. It is placed on a blue textured surface next to a black ruler with white markings in centimeters and millimeters.

Solder Board-Component View 2	 A photograph of a small, square, black printed circuit board (PCB) component. The board is populated with various electronic components, including a central integrated circuit (IC), several resistors, and capacitors. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the component positioned between the 10mm and 50mm marks.
Solder Board-Component View 3	 A photograph of a small, rectangular, black printed circuit board (PCB) component. The board features a central integrated circuit (IC) and a few other components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the component positioned between the 10mm and 50mm marks.
