**EXHIBIT 1**

**GENERAL DESCRIPTION**

## INTERTEK TESTING SERVICES

---

### 1.0 **General Description**

#### 1.1 Product Description

The equipment is a 43/49MHz 25 Channel Cordless Phone with model: FF802 for change in identification. The unit is capable of either tone or pulse dialing. The internal power supply's isolation is accomplished through a power transformer having an adequate dielectric rating. The circuit wiring is consistent under the requirement of part 68.

The handset unit consists of a keypad with twelve standard keys (0,...9,\*,#), three function keys (Memo, Redial and Flash). A talk key is provided to control pick/release telephone line in a toggle base.

The base unit has a page key, which is used to page the handset unit.

For electronic filing, the circuit description is saved with filename: descri.pdf

Connection between the device and the telephone network is accomplished through the use of USOC RJ11C in the 2-wire loop calling central office line.

## INTERTEK TESTING SERVICES

---

### 1.2 Original Identification Information

The original identification (FCC ID) of the equipment is LBBFF714 and granted on September 4, 1996. The name of grantee is Continental Conair Limited. The copy of certificate is attached in Exhibit 2.

### 1.3 Reason of Change in Identification

The original grantee, Continental Conair Limited would like to add a new model number FF802 and a new identification LBBFF802 for cosmetic changes and marketing purposes. The equipment of this new application is electrically and functionally identical to the old application.

### 1.4 Representative of Previous Field Data

The data of the equipment previous filed with FCC ID: LBBFF714 by commission continues to be representative and applicable to the equipment bearing the changed identification.

All the items listed under this filing are confirmed by:

C. K. Lam  
*Assistant Manager*  
*Intertek Testing Services*  
*Agent for Continental Conair Limited*
