RE: Request for Original Equipment Certification – FCC: SWX-UKU

It is hereby requested that Ubiquiti Inc. obtain FCC Class II Permissive Change of a radio apparatus on the Ubiquiti Inc. product UK-Ultra. The associated FCC: number is listed above.

The purpose of this Class II Permissive Change is to add an additional external panel antenna to the UK-Ultra.

The UK-Ultra is a WiFi mesh that provides simultaneous, dual-band, 2x2 MIMO technology. The UK-Ultra is used to expand the coverage of an UniFi system. The UK-Ultra provides 802.11ac technology for ubiquitous WiFi coverage for both indoor and outdoor use. The UK-Ultra is power from a 48 volt PoE adapter.

Sincerely,

Alex Macon
Ubiquiti Inc.
