Response For FCC Application  
2004/9/21

RE: ELETEGROUP

FCC ID: SA6G220IBGX

1. The correct one is Intel 2200BG. The test reports were actually tested based on 2200BG. The internal photos and the users manual have been updated
2. Updated
3. Retested and updated
4. The antennas are located on the top corner of the LCD panel, which are shown in internal photo. Therefore, SAR is not necessary. RF exhibit is uploaded based on MPE.
5. Updated.

Sincerely Yours

Daniel Lee

EMC/SAR Manager
