» IMPORTANT NOTICE & PRECAUTIONS

Thank you for using our DS18 multi-media player! To operate the unit correctly, please read the operation manual carefully before using. Keep this operation manual for further reference.

The unit is designed only for DC 12V negative ground operation system. Make sure your vehicle is connected to DC 12V negative ground electricar system. Be sure to connect the speaker(-) leads to the speaker (-) terminal. Never connect the left and right channel speaker wires together or to the vehicle body.

The normal temperature for operation is between -20 and 60 degree Celsius. Do not work in extreme high or low temperature and block vents or radiator panels of the unit, blocking them will cause heat to build up inside the unit and may cause damage or fire.

This unit can play the multi-media files: RMVB / MPEG 4 I DivX / AVI / 1080p / MP3 /WMA/ JPEG.

» INSTALLATION

- Installation varies on type of cars and supplied parts
- Store small articles in places not accessible to children
- Install only with the supplied screws
- Installation of unit by professional technician is strongly recommended

» REMARKS

Mounting brackets and screws are the parts that supplied in your car and not provided in this unit.

» AVISO IMPORTANTE Y PRECAUCIONES

¡Gracias por utilizar nuestro reproductor multimedia DS18! Para operar la unidad correctamente, lea atentamente el manual de operación antes de usarla. Conserve este manual de funcionamiento para futuras consultas.

La unidad está diseñada solo para el sistema de operación de tierra negativa DC 12V. Asegúrese de que su vehículo esté conectado al sistema eléctrico de tierra negativa DC 12V. Asegúrese de conectar los cables del altavoz (-) al terminal del altavoz (-). Nunca conecte los cables de los altavoces de los canales izquierdo y derecho juntos ni a la carrocería del vehículo.

La temperatura normal de funcionamiento es de entre -20 y 60 grados Celsius. No trabaje en temperaturas extremadamente altas o bajas NI bloquee las rejillas de ventilación o los paneles del radiador de la unidad, bloquearlos hará que se acumule calor dentro de la unidad y puede causar daños o incendios.

Esta unidad puede reproducir archivos multimedia: RMVB / MPEG 4 I DivX / AVI / 1080p / MP3 / WMA / JPEG.

» INSTALACIÓN

- La instalación varía según el tipo de vehículo y las piezas suministradas.
- Almacene los artículos pequeños en lugares no accesibles a los niños.
- Instale solo con los tornillos suministrados en el paquete.
- Se recomienda encarecidamente la instalación de la unidad por parte de un técnico profesional.

» OBSERVACIONES

Los soportes de montaje y los tornillos son las piezas suministradas por su automóvil y no se proporcionan en esta unidad.

BACK OF MAIN UNIT / PARTE TRASERA DE LA UNIDAD PRINCIPAL

>> REMARKS

Due to the law of some countries, video playback is not allowed, during driving. To allow video playback during driving, the brown wire (brake) should be connected to ground (b-) of the car battery.

>> OBSERVACIONES

Debido a la ley de algunos países, no se permite la reproducción de video durante el manejo del vehículo. Para permitir la reproducción de video durante el manejo, el cable marrón (freno) debe conectarse a tierra (b-) de la batería del vehículo.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 10mm between the radiator and your body.
