INSTRUCTIONS

SMARTPHONE WIRELESS CHARGING STAND

Please read this manual carefully before using the charging stand, as this contains important safety information. Please keep the charging stand away from children.

Contents

Wireless Charger x 1
USB-C to USB-C charging cable

Charging

Connect the USB-C cable to the port of the charger and to a power source with a USB-C port. The LED turns red.

Plane and charge: Place and align the wireless charging receiver in your phone onto the charging plate. The LED turns blue while charging. When fully charged, the LED will turn off.

Landscage Charge: Press the release button to unlatch the charging plate. Place your phone onto the resting slot and align the wireless charging receiver in your phone to the charging plate. The LED turns blue while charging. When fully charged, the LED will turn off.

Portrait Charge: Press the release button to unlatch the charging plate. Pull the charging plate gently to extend the height to fit your phone. Place your phone onto the resting slot and align the wireless charging receiver in your phone to the charging plate. The LED turns blue while charging. When fully charged, the LED will turn off.

Important Notes

- Do not disassemble, attempt to open or break the product. Keep away from fire and water.
- Do not use in hot or humid environment to prevent damage and potential harm to the user.
- Keep away from items with a magnetic strip or chip card (credit card, bank card etc.)
- This charger is not a toy. Keep away from children.
- Keep a distance of 30cm between the charger and implantable medical devices to avoid potential interference.

Technical specification

Input: DC 5V 3A; DC 9V 3A
Output: 5W; 7.5W; 10W; 15W
Transmission distance: < 8mm
Charging efficiency: > 80%

FCC COMPLIANCE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
