Modular Approval Request

FCC ID : APV-BRD01

The following attestation addresses the requirements to support modular approval:

Modular approval requirement	Yes (provide brief statement)	No *
(a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly		No. We are seeking Limited Modular Approval. The EUT was tested inside a worst case host and complies with all applicable spurious emissions requirement.
(b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	Yes	
(c) The module must contain power supply regulation on the module	Yes	
(d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	Yes	
(e) The module must demonstrate compliance in a stand-alone configuration	Yes	
(f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling		The host will be labeled with contains: FCC ID: APV-BRD01 but not the module itself

requirements)		
(g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements	Yes	

Modular approval requirement	Yes (provide brief statement)	No *
(h) The module must comply with RF exposure requirements	Yes, Bluetooth module with Classic and BLE. Exempt from SAR requirement due to low power 0.01665 W	

Sincerely,

March 24 2016
