## Product Information

|                             |                                    |
|-----------------------------|------------------------------------|
| Product name:               | Tattoo Portable Bluetooth Printer  |
| Product number:             | APA46Y                             |
| Product weight:             | 516g                               |
| Product size:               | 266mm*59mm*31mm                    |
| Print type:                 | Thermal printing                   |
| Input voltage:              | DC 5V/2A                           |
| Battery capacity:           | 1500mAh(7.4V)                      |
| Automatic shut-down:        | 30min                              |
| Standby time:               | About 30 days                      |
| Charging time:              | About 3 hours                      |
| Continuous printing:        | 90 sheets of tattoo printing paper |
| Paper width specifications: | 210mm or 216mm                     |
| Charging port:              | Type-C                             |

## Product introduction

Power button Long press for 3 seconds to turn on/off

## App download

Search 'Luck Jingle' in the App Store

Download on the App Store

Get it on Google Play

## Switch machine

Power on: Press and hold the power button for 3S until the indicator light is on

Shutdown: Press and hold the power button for 3S until the indicator light goes off

❶ Pull out the interlayer paper in the middle of the tattoo printing paper then tear off the yellow paper, put the white front side neatly into the printer input port, and the printing paper will be sucked in automatically

## Connect application

After the device is turned on, open the APP, click the "Not Connected" button in the upper right corner, enter the "Add Device" list, click the device to connect to Bluetooth, and then print.

★Tips: When connecting, please make sure that the Bluetooth of the mobilephone is turned on, and the device is close to the mobile phone

## Safety and precautions

- Do not charge or use the printer in high temperature, humid or dusty places.
- Please use 5V2A input to charge, you can use mobile phone power adapter to charge.
- After printing, do not touch the print head directly to prevent overheating and scaling.
- Please insert or pull out the charging cable gently to avoid damage to the interfacel due to excessive force.
- Improper charging may cause print head damage.
- Unplug the charging cable in time after charging is completed.
- Please insert or pull out the charging cable gently to prevent the machine from slipping and being damaged.
- When not using the machine for a long time, please turn off the power of the machine.
- Prevent foreign matter from entering the machine, so as not to cause malfunction or other risks.

## FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
 (1) This device may not cause harmful interference.  
 (2) This device must accept any interference received, including interference that may cause undesired operation.  
 2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. This equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:  
 • Reorient or relocate the receiving antenna.  
 • Increase the separation between the equipment and receiver.  
 • Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
 Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general FR exposure requirement. The device can be used in portable exposure condition without restriction.

## Operating procedure

Remove the ❷ Transparent protective sheet and ❶ Yellow backboard. That leaves ❸ White transfer paper and ❹ Ink page

Open the printer. Insert the ❶ White transfer paper and ❹ Ink page, with the White transfer paper facing up

Note: Tattoo printer in the absence of paper, the indicator light will blink, this is a normal phenomenon. The quality of the transfer paper will affect the printing effect (the quality of the transfer paper is determined by the uniformity of the ink sheet)

## Large multi-copy printing clipping function

Select image crop vertical plus 1, cross plus 1, you can print 4 pieces of Mosaic pattern

## Large multi-copy printing clipping function

Select image crop vertical plus 1, cross plus 1, you can print 4 pieces of Mosaic pattern

Note: Tattoo printer in the absence of paper, the indicator light will blink, this is a normal phenomenon. The quality of the transfer paper will affect the printing effect (the quality of the transfer paper is determined by the uniformity of the ink sheet)

## Large multi-copy printing clipping function

Select image crop vertical plus 1, cross plus 1, you can print 4 pieces of Mosaic pattern

Note: Tattoo printer in the absence of paper, the indicator light will blink, this is a normal phenomenon. The quality of the transfer paper will affect the printing effect (the quality of the transfer paper is determined by the uniformity of the ink sheet)

## Large multi-copy printing clipping function

Select image crop vertical plus 1, cross plus 1, you can print 4 pieces of Mosaic pattern

Note: Tattoo printer in the absence of paper, the indicator light will blink, this is a normal phenomenon. The quality of the transfer paper will affect the printing effect (the quality of the transfer paper is determined by the uniformity of the ink sheet)

## Large multi-copy printing clipping function

Select image crop vertical plus 1, cross plus 1, you can print 4 pieces of Mosaic pattern

Note: Tattoo printer in the absence of paper, the indicator light will blink, this is a normal phenomenon. The quality of the transfer paper will affect the printing effect (the quality of the transfer paper is determined by the uniformity of the ink sheet)

## Sécurité et précautions

- Ne chargez pas et n'utilisez pas l'imprimante à des températures élevées, dans des endroits humides ou poussiéreux.
- Veillez utiliser une entrée de 5V2A pour charger l'imprimante, vous pouvez utiliser l'adaptateur d'alimentation de votre téléphone portable pour charger l'imprimante.
- Après l'impression, ne touchez pas directement la tête d'impression afin d'éviter toute surchauffe ou brûlure.
- Insérez ou retirez doucement le câble de chargement pour éviter d'endommager l'interface en raison d'une force excessive.
- Une charge incorrecte peut endommager la tête d'impression.
- Débranchez le câble de chargement à temps après la fin de la charge.
- Placez l'appareil sur un support solide et stable pour éviter qu'il ne glisse et ne soit endommagé.
- Si vous n'utilisez pas l'appareil pendant une période prolongée, veuillez le mettre hors tension.
- Empêchez les corps étrangers de pénétrer dans la machine, afin de ne pas provoquer de dysfonctionnement ou d'autres risques.

## Procédure d'utilisation

Retirer la feuille de protection transparente ❷ et le panneau arrière jaune ❶, ce qui laisse ❸ le papier de transfert blanc et ❹ la page d'encre.

Ouvrez l'imprimante, insérez le papier transfert blanc et la page d'encre, avec le papier transfert blanc vers le haut.

La qualité du papier de transfert affecte l'effet d'impression (la qualité du papier de transfert est déterminée par l'uniformité de la feuille d'encre).

## Fonction de découpage pour l'impression de grandes copies multiples

Sélectionnez le rognage d'image vertical plus 1, croisé plus 1, vous pouvez imprimer 4 pièces de motif mosaïque.

Note: Tattoo printer in the absence of paper, the indicator light will blink, this is a normal phenomenon. The quality of the transfer paper will affect the printing effect (the quality of the transfer paper is determined by the uniformity of the ink sheet)

Note: Tattoo printer in the absence of paper, the indicator light will blink, this is a normal phenomenon. The quality of the transfer paper will affect the printing effect (the quality of the transfer paper is determined by the uniformity of the ink sheet)

Note: Tattoo printer in the absence of paper, the indicator light will blink, this is a normal phenomenon. The quality of the transfer paper will affect the printing effect (the quality of the transfer paper is determined by the uniformity of the ink sheet)

Note: Tattoo printer in the absence of paper, the indicator light will blink, this is a normal phenomenon. The quality of the transfer paper will affect the printing effect (the quality of the transfer paper is determined by the uniformity of the ink sheet)

Note: Tattoo printer in the absence of paper, the indicator light will blink, this is a normal phenomenon. The quality of the transfer paper will affect the printing effect (the quality of the transfer paper is determined by the uniformity of the ink sheet)

Note: Tattoo printer in the absence of paper, the indicator light will blink, this is a normal phenomenon. The quality of the transfer paper will affect the printing effect (the quality of the transfer paper is determined by the uniformity of the ink sheet)

Note: Tattoo printer in the absence of paper, the indicator light will blink, this is a normal phenomenon. The quality of the transfer paper will affect the printing effect (the quality of the transfer paper is determined by the uniformity of the ink sheet)

Note: Tattoo printer in the absence of paper, the indicator light will blink, this is a normal phenomenon. The quality of the transfer paper will affect the printing effect (the quality of the transfer paper is determined by the uniformity of the ink sheet)

- Quando non si utilizza la macchina per un lungo periodo, spegnerla.
- Evitare che corpi estranei entrino nella macchina, per non causare malfunzionamenti o altri rischi.

## Procedura operativa

Rimuovere il foglio protettivo ❷ trasparente e il pannello posteriore ❶ giallo, lasciando così ❸ la carta di trasferimento bianca e ❹ la pagina inchostro.

Aprite la stampante, inserire la carta di trasferimento bianca e la pagina inchostro, con la carta di trasferimento bianca rivolta verso l'alto.

Nota: in assenza di carta, la spia luminosa della stampante per tatuaggi lampeggia; si tratta di un fenomeno normale. La qualità della carta di trasferimento influisce sull'effetto di stampa (la qualità della carta di trasferimento è determinata dall'uniformità del foglio di inchostro).

## Funzione di ritaglio per stampa multicopia di grandi dimensioni

Selezionare il ritaglio dell'immagine verticale più 1, croce più 1, è possibile stampare 4 pezzi di modello Mosaico

Note: Tattoo printer in the absence of paper, the indicator light will blink, this is a normal phenomenon. The quality of the transfer paper will affect the printing effect (the quality of the transfer paper is determined by the uniformity of the ink sheet)

Note: Tattoo printer in the absence of paper, the indicator light will blink, this is a normal phenomenon. The quality of the transfer paper will affect the printing effect (the quality of the transfer paper is determined by the uniformity of the ink sheet)

Note: Tattoo printer in the absence of paper, the indicator light will blink, this is a normal phenomenon. The quality of the transfer paper will affect the printing effect (the quality of the transfer paper is determined by the uniformity of the ink sheet)
