Newberry, Florida 32669

To Whom It May Concern:

For modular portable use we must run SAR tests on three different products. At the moment we only have two different products currently in production. To provide a third product for testing we created a special test box. This box is basically a wireless print server and could actually be a product on it's own.

As an example the spacing from the antenna to the outside of the 9460NP is 2.72mm. On the 9433NP worst-case spacing is 28mm and the test box the worst-case spacing is 3.73mm. Here is an example of two of the spacing's:

If you have any questions or concerns, please contact me by email at jim.bacher@paxar.com; phone at 1-937-865-2020; or by fax at 1-937-865-2048.

Sincerely,

James A. Bacher
