RE: FCC ID: K7SF5D72354_ATCB001992
Attention: Ellis Wu

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. FYI - Please note that while you have provided an overall block diagram of the system, you have not provided the required block diagram of the transmitter. The actual transmitter block diagram is necessary as it relates to the rf schematics. Please consider providing a block diagram of the transmitter as required by 2.1033.
2. Please note that the device appears more than sufficiently large enough to contain the 2-condition statement on the device. Please explain why this statement is not on the product and please provide a corrected label or another label with this statement on the device. Alternately, please explain how this application meets the exclusion of 15.19(a)(5).
3. Please provide the manual for this device. Please make sure that the manual contains all of the necessary FCC statements.
4. Please provide the correct equipment code on the 731.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
